Mission:

My goal is to educate each student on the subject matter, while simultaneously enhancing each student as a person, by preparing them for a lifetime of learning and producing productive citizens.

Instructional Technique:

We will use a variety of 21st century learning skills to enhance learning. Be prepared each day with your laptop, paperwork, and pencil. We will often work in groups, utilize project based learning, and various technology tools.

Late Work Policy:

Work turned in late will be deducted by 10% within the first week and 20% after the first week. Situations of true emergencies that may prohibit work from being completed on time will be handled between the instructor, the student, and the student's parents if necessary, on a case by case basis.
